The discount period for current taxes ends on October 31st, 1944, but three days grace will be allowed to any taxpayer paying same by November 3rd, 1944.

Municipal District of Wainwright No. 392, Wainwright, Alberta.

JUDICIAL SALE OF FARM PROPERTY BY TENDER

Pursuant to an order of the Supreme Court of Alberta, and of certain directions for sale, sealed tenders will be received for the purchase of the following parcel of farm property, situate 13 1/2 miles from Irma, Alberta, to be sold in one parcel.

The North Half of Section Nine (9), Township Forty-seven (47), Range Eight (8), West of the Fourth Meridian, in the Province of Alberta, containing by admeasurement Three Hundred and Twenty-two (322) acres, more or less. Reserving thereout all mines and minerals, coal and petroleum. Subject to the conditions and reservations contained in the original grant from the Crown or in the existing Certificate of Title thereto, and subject to all taxes rates and assessments imposed thereon, subsequent to the 31st day of December, 1943.

Approximately 260 acres have been under cultivation, five acres are brush and 60 acres could be broken on the land. The top soil is a sandy loam, 10 inches deep, with a subsoil of sand, 10 inches deep.

The nearest postoffice and elevator is at Irma.

The nearest school is two miles away.

The buildings are as follows: House, 16x22 and lean-to 16x22, part frame and part log; Granary 12x16. The buildings are in very poor condition.

There is one well, 35' deep. The land is all fenced.

The sale will be subject to an upset price of \$3,250.00.

Tenders must be enclosed in sealed envelopes marked, "Tender re Canada Permanent Mortgage Corp. vs Bruce Albert Osterhout et al. No. 33889", and addressed to the Clerk of the Supreme Court, Court House, Edmonton, Alberta, and must be in the hands of the said Clerk not later than 12:00 o'clock noon on the 31st day of October, 1944.

TERMS OF SALE
Each tender must be accompanied by a marked cheque or cash for 10 percent of the amount of the tender, and the balance of the purchase price shall be paid into Court within forty days after the acceptance of the tender, without interest. The Purchaser to make his own arrangements for the purchase by way of mortgage or otherwise.

The deposit of 10 percent shall be forfeited by the successful tenderer if he refuses to carry out the purchase after the acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof; the highest or any tender not necessarily accepted. In all other respects the terms and conditions of the sale will be standing conditions of sale of the Supreme Court of Alberta as far as the same are applicable hereto.

For further particulars apply to Messrs. Newell, Lindsay, Emery and Ford, Barristers, Canada Permanent Building, 100th Street, Edmonton, Alberta.

DATED at the City of Edmonton, in the Province of Alberta, this 5th day of October, A. D. 1944.

"R. P. Wallace,"
C. S. C.

**EYES EXAMINED:
GLASSES FITTED**
Thos. G. Dark, registered optometrist and eye sight specialist, will make his next visit to:

Viking Drug Store 3.30 to 8.30 Monday, October 30th.
Kinsella Hotel 8.30 to 10 Tuesday morning, October 31st.
Irma Drug Store 10 to 12 Tuesday morning, October 31st.

W. I. MEETING
The November meeting of the Irma W. I. will be held Thursday November 2nd. The roll call will be answered with a donation for the Novelty Table at the Bazaar.

NEWS OF OUR BOYS

According to word received here Jimmie Batchelor formerly of Fabyan, was killed in action on the Gothic line in Italy. He had been sick in a hospital previous to this time and had only been back on duty a short time.

Eldon Herbert is with the Canadian forces in Belgium.

L. Cpl and Mrs. A. Friesen left for Kingston, Ont., on October 20. Cpl Ashley (Bud) Walker, of Saskatoon, son of W. E. Walker, Irma, spent the week-end October 15th with his oldest sister, Mrs. V. Peterson and family.

IRMA UNITED CHURCH ANNUAL SERVICE AND DINNER HIGHLY ENJOYED

The Irma United Church services on Sunday and Monday, October 22nd and 23rd were of marked and outstanding interest and quality in the history of the church.

The Rev. E. F. Kemp, a former pastor of the Irma charge, was the guest minister and speaker for the occasion.

On Sunday, services were held at Albert and Roseberry as well as the evening service at Irma. At Roseberry a united service was held with members and friends from both Alma Mater and Pessendale attending. Mr. Kemp brought a message of real challenge and inspiration to all the congregations, and the special anniversary music by the choir at the evening service was greatly appreciated.

The Monday evening festivities and meeting were also of high quality. The splendid fowl dinner provided by the ladies of the church and the social atmosphere and spirit of the occasion were all that anyone could desire.

Following the dinner in the church basement a large congregation assembled in the church for the evening meeting.

The Anniversary address by Rev. Kemp based largely upon his own experiences as a pioneer missionary student, and later as an ordained minister of the church, brought many a chuckle and laugh as well as more restrained and serious thoughts and feelings.

The musical programme of the evening consisted of three special numbers by the choir, and a beautiful little chorus by the beginners and primary children of the Sunday school.

Words of appreciation were spoken and a vote of thanks proposed by Mr. James Fenton to Mr. Kemp for his helpful messages, to the Ladies of the church who had provided so well and so abundantly for the anniversary dinner, to the choir for their fine musical contributions, and to all others who had helped to promote the interest, spirit and effectiveness of our anniversary services. Other words of appreciation were spoken by Mr. A. H. Locke who seconded the motion of thanks.

The meeting closed with the national anthem and the benediction by Rev. A. D. Richard of Wainwright. Mr. Longmire, as minister and the officers and stewards of the church, wish to take this opportunity to thank all our members and friends for their interest and contributions to the success of our anniversary services.

Interest in Victory Bonds

The meeting closed with the national anthem and the benediction by Rev. A. D. Richard of Wainwright. Mr. Longmire, as minister and the officers and stewards of the church, wish to take this opportunity to thank all our members and friends for their interest and contributions to the success of our anniversary services.

Interest in Victory Bonds

The meeting closed with the national anthem and the benediction by Rev. A. D. Richard of Wainwright. Mr. Longmire, as minister and the officers and stewards of the church, wish to take this opportunity to thank all our members and friends for their interest and contributions to the success of our anniversary services.

Interest in Victory Bonds

The meeting closed with the national anthem and the benediction by Rev. A. D. Richard of Wainwright. Mr. Longmire, as minister and the officers and stewards of the church, wish to take this opportunity to thank all our members and friends for their interest and contributions to the success of our anniversary services.

Interest in Victory Bonds

The meeting closed with the national anthem and the benediction by Rev. A. D. Richard of Wainwright. Mr. Longmire, as minister and the officers and stewards of the church, wish to take this opportunity to thank all our members and friends for their interest and contributions to the success of our anniversary services.

M. D. Wainwright Council Minutes

The Council of the Municipal District of Wainwright No. 392 met in the Council Chamber of the Municipal District on Thursday October 12, 1944, at 10 a.m. Councillors Fahner, Spencer, Sutherland, Smale and Archibald present.

Reeve Sutherland in the chair.

Moved by Mr. Spencer that the minutes of September 14, 1944, be adopted as written with corrections noted. Carried.

Moved by Mr. Archibald that all matters dealt with at the September meeting 1944, be per records of September 14, 1944, be approved by this meeting. Carried.

Moved by Mr. Spencer that the accounts as presented and approved by the Finance Committee amounting to \$2545.36, be passed and paid.

Sutherland—that the Pay Sheets as presented and certified by the Council-Office concerned amounting to \$6,228.75 be passed for payment.

Archibald—that the Finance Committee with Mr. Wilbraham meet Dr. Wallace with reference to his account amounting to \$150.00 and that the Council be notified to meet the Council at their meeting of November 9, 1944, to conclude any arrangements arrived at.

Sutherland—that the account of L. W. Smith re T.B. Mobile X-Ray Clinic be paid in full of \$13.75 having been paid in full and that the Secretary notify the villages of Chauvin and Irma that the Council will consider any payment of any proportional costs incurred in their districts. Cd.

Archibald—that the accounts of the Municipal Supplies and Winesap and the Hamilton Cannery and Metal Defectives Account be tabled until the November meeting. Cd.

Fahner—that the account of the Wainwright Municipal Hospital re Mrs. Chirence Newell be tabled until the November meeting. Cd.

Spencer—that W. F. Hays be paid the sum of \$80.00 on account of gravel pit fees. Cd.

Spencer—that a cheque be drawn on the treasury for \$150.00 in favor of the Salvation Army for 1944 grant. Cd.

Sutherland—that the statement of Receipts and Payments for the year ending September 1944 be received and read and incorporated in the minutes. Cd.

Sutherland—that that part of motion No. 228 of 1944 reading "Pay sheet No. 146 for \$132.00, be corrected to read \$120.20" and that the Council No. 237 of 1944 reading "Pay Sheet No. 228 for \$230.00" be corrected to read \$220.00. Cd.

Fahner—that the sum of \$50.00 be paid to George Germain for the sum of \$50.00 from the gravel pit in the SE 22-42-44th this amount to include the balance and being payment in full. Cd.

Administration and Taxation
Spencer—that the report of Mr. Sutherland and the civilian members of the Manoeuvre Board, as to the Municipal District's claim for damages done by said Board to several municipal roads be accepted. Cd.

Fahner—that cancellations amounting to \$10.00 be approved. Cd.

Archibald—that this Council finish the gravelling of the Sadie Hills project from Edgerton grant grant providing the gravel is of the proper quality, and the road from the Village of Edgerton North to the Highway, be completed with gravel from the Battle River pit. Cd.

Municipal Property
Spencer—that By-Law No. 57 concerning the sale of the NW 12-44-94th and 45-104th be approved. Cd.

Sutherland—that By-Law No. 58 concerning the sale of the NW 12-44-94th to Mrs. Brounson pass its first reading. Cd.

Fahner—that By-Law No. 58 pass its second reading. Cd.

Smale—that By-Law No. 58 pass its third and final reading and that the Secretary transmit the necessary papers to the Department concerned. Cd.

Spencer—that By-Law No. 59, concerning the sale of the NW 12-44-94th to Mrs. C. Drive pass its first reading. Cd.

Smale—that By-Law No. 59 pass its second reading. Cd.

Archibald—that By-Law No. 59 pass its third and final reading and that the Secretary prepare all papers to the Department concerned. Cd.

Fahner—that By-Law No. 59 concerning the sale of the NW and S16 24-44-94th to Alex. Stokoe pass its first reading. Cd.

Smale—that By-Law No. 91 pass its second reading. Cd.

Sutherland—that By-Law No. 91 pass its third and final reading and that the Secretary prepare all papers

and forward same to the interested parties. Cd.

Smale—that By-Law No. 92 concerning the sale of the NW 22-44-104th to Jack Sewell pass its first reading. Cd.

Fahner—that By-Law No. 92 pass its second reading. Cd.

Sutherland—that By-Law No. 92 pass its third and final reading and that the Secretary prepare all papers and forward same to the interested parties. Cd.

Fahner—that this Council accept the offer of C.D. Curran for grainary on the NW 14-13-104th for \$45.00 cash. Cd.

Smale—that the offer of W. Schwenk to lease certain lands as contained in his letter of September 25, 1944, be declined, owing to existing regulations. Cd.

Relief, Grants and Health
Fahner—that the Secretary reply to Form 10A File 3189 Old Age Pensions Department re Erik Collin that to the Council's opinion full pension be granted to this applicant. Cd.

The Secretary was instructed to prepare if possible a draft petition with reference to enlarging the Hospital boundaries to include range 4 and range 8. Cd.

Protection of Person and Property
Used Inspector's reports for districts 1 and 7 read and ordered filed. Cd.

Spencer—that the Secretary visit Edgerton on Monday, October 30, and Chauvin, October 31, and Irma November 1st for the purpose of collection of taxes on these dates to be advertised in local papers, also date of discount period ending. Cd.

Spencer—that we do now adjourn. Cd.

Red Cross Notes

A startling statement heard over the radio lately warned the people that over confidence was Enemy No. 1 in Canada. First we must work and work hard to win the war before we can begin to slacken our pace in the sewing rooms, knitting and relief work of all kinds, then perhaps we can begin to think of "After the War."

Maybe it seems a little senseless, but it is not likely to replace that of the tractor. The jeep's speed is too fast for farm work and even when throttled has not sufficient power. Also unsatisfactory is its transmission which like that of most war vehicles is designed for military use and not to run continuously in low gear, they said.

A theory that tanks might be used as bull-dozers was exploded at the meeting when agricultural engineers agreed that tanks are designed to carry their own load only and not to do bull-dozing work. Nor has the universal carrier any possibility for adaptation as a tractor, as some people had believed.

One agricultural engineer pointed to the danger of being unable to obtain repair parts for military vehicles. He said that at the present, manufacturing companies own neither military vehicle nor their parts which, on manufacture become government property.

The committee agreed, however, that military trucks of the standard two-wheel drive design, all types of trailers, component parts and spare wheels in good condition would be of great value to agriculture.

It would be a sorry thing if after the dust of actual combat had settled, voluntary service settled with it! Our vision must be wider than that—our sense of responsibility more enduring.

Canadian Red Cross has made an enviable name among volunteer organizations. The red cross on the white ground betoken certain standards of service high in the eyes of all men. It is the privilege of all "Red Crossers" now to keep the flag flying!

Come on, Ladies! There is still sewing to be done, yarn to knit up, pyjamas to make and clothing for children is sorely needed.—The Legion Hall every Tuesday from 2:30 to 5:30.

IN MEMORIAM

In Loving Memory of our dear grandson, Laurence Meyer, who was called away four years ago today.

Not dead to us who loved him. Not lost but gone before. He lives with us in memories. And will for evermore.

Sadly missed by Grandpa and Grandma White, Aunties, Frances and Evelyn; Uncles Gordon and Laurence.

At the Churches

UNITED CHURCH SERVICES
Sunday, October 29th

There will be no preaching services at the country appointments on the above date as Rev. Mr. Longmire will be away.

Sunday school in Irma at 11 A. M., and public worship at 7:30 P. M., at which Rev. G. Steele of Jarrold will preach.

There will be Sunday school at Roseberry at the usual hour. On Nov. 5th there will be preaching services at Paschenale, Albert and Alma Mater at the usual hours.

ST. MARY'S ANGLICAN CHURCH
Service of Evening Prayer at 7:30 P. M. on October 29th.

CHRISTIAN AND MISSIONARY ALLIANCE
Irma Tabernacle Bible School at 2:15 P. M.
Gospel Service 3:30 P. M.
Hardisty Oddfellows' Hall, Gospel Service 8 P. M.

A hearty welcome to all. "Who His own self bare our sins in His own body on the tree, that we being dead to sins should live unto righteousness; by whose stripes we were healed."—Peter 2: 24.

JEeps NOT SUITABLE FOR USE ON FARMS

Swords may be beaten into ploughshares but few military vehicles can be converted to farm use, states the National Committee on Agricultural Engineering, which recently met in Ottawa at the invitation of the Dominion Department of Agriculture.

E. A. Hardy and R. P. Frey of the University of Saskatchewan, Saskatoon, said that recent experiments they have conducted with the jeep reveal that the transmission of this vehicle will not stand up if burdened with more than a four-horse load. While the jeep is a good vehicle for the farm, it is not likely to replace that of the tractor. The jeep's speed is too fast for farm work and even when throttled has not sufficient power. Also unsatisfactory is its transmission which like that of most war vehicles is designed for military use and not to run continuously in low gear, they said.

A theory that tanks might be used as bull-dozers was exploded at the meeting when agricultural engineers agreed that tanks are designed to carry their own load only and not to do bull-dozing work. Nor has the universal carrier any possibility for adaptation as a tractor, as some people had believed.

One agricultural engineer pointed to the danger of being unable to obtain repair parts for military vehicles. He said that at the present, manufacturing companies own neither military vehicle nor their parts which, on manufacture become government property.

The committee agreed, however, that military trucks of the standard two-wheel drive design, all types of trailers, component parts and spare wheels in good condition would be of great value to agriculture.

It would be a sorry thing if after the dust of actual combat had settled, voluntary service settled with it! Our vision must be wider than that—our sense of responsibility more enduring.

Canadian Red Cross has made an enviable name among volunteer organizations. The red cross on the white ground betoken certain standards of service high in the eyes of all men. It is the privilege of all "Red Crossers" now to keep the flag flying!

Come on, Ladies! There is still sewing to be done, yarn to knit up, pyjamas to make and clothing for children is sorely needed.—The Legion Hall every Tuesday from 2:30 to 5:30.

IN MEMORIAM

Items From Kinsella District

The Rev. Longmire of Irma took the service at Kinsella on Sunday morning.

Kinsella friends were very sorry to hear of the death of Gordon Elliott of the RCNVR, and wish to extend their deepest sympathy to the relatives.

Barry Holt is receiving treatment at an Edmonton hospital, and we all wish him a speedy recovery.

Mrs. George Jackson and son Dennis, are spending a few days in Kinsella with Mrs. Ben Wachter.

Cpl Stevens of the RCAF who has been spending a leave at his home in Kinsella, left on Saturday for Calgary.

The W. I. will meet on Saturday, October 28th, at the home of Mrs. Wachter.

Britain And The Future

A GREAT DEAL IS BEING SAID and written just now about the future. Everyone is aware that we are living in swiftly changing times and that conditions will never again be as they were before 1939. There are definite signs pointing to some of the developments which will come with the return of peace. It is clear that social security is to be an important factor in the post-war economy, and it is also clear that events of the past five years have permanently altered former systems of international communication. These are only some of the changes which we know are imminent. There are other aspects of the post-war picture which are not so clear, and about which there is considerable speculation. While there is now no doubt as to the outcome of the war on the battle front, the political results are not so clear-cut and there are many points in this connection concerning which there are few definite conclusions.

Peak Of Glory Believed Past

One subject, about which many like to speculate, is the future of the British Empire. This interest is apparent among numerous writers and commentators in other countries, as well as among the British people themselves. In certain quarters, the opinion has been expressed, from time to time, that the British Empire has passed the peak of its glory, and that it will emerge from the present conflict as a "second class" power. In support of this argument, it has been pointed out that Russia, with a population of 200,000,000 people, and vast natural resources, appears to be just at the beginning of a period of great expansion, politically and industrially. There is also the United States, with 135,000,000 people, and likewise possessed of great natural wealth. The population of Britain is somewhat over 44,000,000, and in comparison to Russia and the United States, her natural resources are limited, as are her potentialities for increased industrial expansion.

Some Facts To Be Remembered

There are, however, other considerations which enter into any estimation of a nation's greatness, past or future. In the spectacular events which are marking the climax of the war in Europe, it should not be forgotten that the people of Britain carried on alone, in the critical period following the fall of France, and that their courage and determination wavered then, the whole future of civilization would be quite different to what it is today. The people of the Empire have stood firmly together in this war, and have added much to an already proud fighting tradition in all the services. For her part Britain has started a program for the improvement of social and economic conditions throughout the colonies, and has declared her intention of extending Dominion status to India at an early date. In science, invention and the arts the British people have shown that they are second to none, and British statesmen have for generations given the highest forms of wise and courageous leadership. Consideration of these, and kindred facts, leaves no room for thought that Britain's future will be less glorious than her past.

Names To Remember

Controllers Of Germany's Coal Deposits Head Menace To Peace

W. L. Clark, in the Windsor Star, says: Here are a few names to be kept in mind:

Thyssen, Flick, Krupp, Kockner, Haniel, Stinnes and Hoesch. These are the families which control the wealthy coal deposits of the German Ruhr. They are not the names of the generals of the German armies, but they are the names of the people who really control Germany and who are behind the manoeuvres by which Germany hopes to conquer the world.

The Ruhr is the vast coal mining sector. Factories are built at the mouths of the coal pits and the Ruhr is highly industrialized. It is there the armaments and material for heavy military equipment are manufactured.

As long as these big names in Germany are intent on world conquest and as long as they are allowed to control the Ruhr coal and industrial output, the world is in danger of war, and threatened with aggression from Germany.

The Germans are dangerous people. They were, they are and they will continue to be dangerous. That is why they must be watched constantly and vigilantly.

Price Control And Rationing Information

Q.—Can I rent a gun for hunting and secure ammunition for it?

A.—No. Permits to buy small arms ammunition for hunting are available only to registered gun owners whose registration certificates are dated before August 15, 1944. It is too late now to get a permit as they had to be secured before September 30.

Q.—Would you kindly list the contents of ration book 5 so that I can check over my book to make sure everything is in order?

A.—In your new ration book there will be one sheet of pink sugar coupons; one sheet of preserves coupons, goldenrod in color; two sheets of mauve butter coupons; two sheets of buff "M" coupons; one sheet of lemon-colored "P" coupons; one sheet of black "R" coupons; one sheet of green "S" coupons and one card marked RB-one ninety-one. If there is any error at Mr. Penrose's or take your book right away to the Local Ration Board.

Q.—Will there be any extra sugar allowed for the making of cakes and cookies for organizations sending parcels overseas for Christmas?

A.—No, extra allowances of sugar are not made for such purposes.

Q.—Is there a ceiling price on a used bicycle?

A.—Yes, used bicycles have a ceiling price and if you are planning on either purchasing or selling one it would be advisable to get in touch with your nearest Wartime Prices and Trade Board office and full particulars will be given you.

Q.—I bought a used card about six months ago. I now want to turn this card in and buy another one. Could you tell me what papers I must make out in a sale of this kind?

A.—If you bought a used card only six months ago you will not be eligible for another one until January 1945.

—O—

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Increase Tire Life

Development Of The New Heat-Tempered All-Plastic Tire

Development of the first "heat-tempered" all-plastic tire—a step that eventually may greatly increase tire life—was announced by W. H. Funston, President of the Firestone Tire and Rubber Company of Canada Limited. The development is considered of major importance because the tire is designed to whip the number one enemy of long wear—heat.

This new tire has been developed and now is being laboratory tested at the Akron, Ohio plant. Whether the all-plastic one ultimately will compete with its rubber colleague will not be known until the company completes the current laboratory examination and the grueling road tests to which the new tire will be subjected.

Experts agree that heat causes most tire failures and that great mileage could be rolled up if the problem were licked. Taking a long step toward achieving this goal, Firestone engineers built the all-plastic tire to withstand twice the heat a natural rubber tire develops at high speeds.

This was done by thermosetting, or "heat-tempering," the plastic which went into the 4.00-16 passenger car tire. The "tempering" was achieved by adding certain materials to the plastic and applying heat.

The Firestone all-plastic tire, which looks so much like a rubber tire that only an expert could tell the difference, does not crack or check in the sunlight and, unlike rubber tires, it is not soluble in gasoline or oil.

How soon all-plastic tires, if they live up to expectations, will be available for civilian use is uncertain because all tire manufacturing facilities now are devoted to building military and essential civilian tires.

SUBS HAVE AIR MAST

A Berlin broadcast asserted a new U-boat technical development was an "air mast" which would allow submarines to remain under the surface 20 to 30 days or longer. The mast permits the submarines to receive fresh air while submerged, Berlin said.

Utah formerly was spelled Yuta, Youta, Rutaw, and Utaw.

Rescued Red Devils

Lieut. R. J. Kennedy of Dunrobin, Ont., who planned the rescue of the British Red Devil paratroopers caught at Arnhem. Lieut. Kennedy, a member of the Royal Canadian Engineers, worked out the whole Canadian operation whereby 2,500 paratroopers were taken across the lower Rhine in small boats under heavy fire.

Usually Accurate

Man In Jackson, Michigan, Predicts 1945 Will Be Dry

Abraham Streiff, consulting engineer with the Fargo Engineering Co., of Jackson, lays no claim to being a weather prophet, but he is able to tell public utility companies which depends on river levels for power production what the future prospects for rainfall are.

Streiff is predicting that 1945 will be a dry year and that 1946 will be even drier, as dry in fact, as were the years 1925 and 1931.

Streiff arrives at his predictions by studying sun spots. He has been charting rainfall compared with sun spots for 25 years and says it is a pretty exact science. The sun spots are recorded at the observatory on Mt. Wilson, near Pasadena, Calif.

The sunspot record, Streiff says, goes back to 1875, and the precipitation chart rises and falls accordingly to the record of the spots. He says the sunspots appear in cycles.

They are first seen in the upper latitudes on Old Sol's face, and as they gain in number they move toward the sun's equator. They mass there for a time, then gradually disappear.

In 1929, Streiff prepared a 20-year chart of sunspot frequencies and the accompanying rainfall. He accompanied it with a prediction of the precipitation curve through 1940. It proved exceptionally accurate.

Canadian Fighter Pilots

How A Damaged Mosquito Plane Got Safely Back To Home Base

More than 500 miles from England two Dominion fighter pilots, an Australian squadron leader and a Canadian flying officer, said goodbye to each other on their radio telephones over Northern Germany one evening, not far from the Baltic. The Canadian Mosquito had been damaged by the debris of a German aircraft which he had shot up. The pilot said he could not get back and so he and his observer would have to abandon their aircraft.

The Australian, Squadron Leader Charlie Scherf, D.F.C., of Glen Innes, New South Wales, with P.O. W. Stewart of Toronto, as his observer flew back to England, shooting up enemy aircraft on the way and reported at base what happened.

Half an hour went by. Then a Mosquito, with one engine out of action, was sighted. It made a safe landing—out stepped the Canadian pilot, P.O. Johnnie Calne, D.F.C., of Edmonton, and his observer P.O. Earl Boal, of Regina, Sask.

Their Mosquito had brought them all the way back from the Baltic with one of its two engines stopped.

Ship Cattle By Plane

Australian Airmen In India Undertake Unique Job

One job given to Australian airmen in India was that of flying cattle into Burma. The first step involved camouflage. White animals were painted with permanganate and turned into brunettes. They were then walked into the planes and thrown and tied. Later they were lashed into bamboo stalls. The airmen also flew in mules and ponies, but these were less troublesome than the cattle.

IT ALL DEFENDS

The Brandon Sun wants to know "How can defeat state an enemy in the face when he is retreating?" A good deal depends on whether he's running away or backing up.

R.C.A.F. Awards

Canadians Receive Distinguished Flying Crosses And Distinguished Flying Medals

A number of Canadians serving in the R.C.A.F. overseas have been honored in the latest list of awards released by Air Force headquarters. These fliers, serving in various capacities, have been rewarded for their coolness and determination in the face of trying circumstances.

Squadron Leader L. G. Neilly of Gifford, Ontario, has been cited for his fine display of leadership in directing a search resulting in the rescue of 17 passengers of a plane forced down on the sea. Flying Officer J. Wagman, of Regina, Sask., was returning from a mission when his fuel tanks were holed by anti-aircraft fire and he was forced to bring his aircraft down on the sea 40 miles from the English coast. In spite of adverse weather and lack of landing lights he skillfully avoided a catastrophe.

Distinguished Flying Cross Squadron Leader L. G. Neilly, son of Mr. L. A. Neilly, Gifford, Ontario. Flying Officer A. L. Butler, son of Mr. F. C. Butler, Vancouver, B.C. Flying Officer R. C. Penrose, son of Mrs. A. M. Penrose, Vancouver, B.C.

Flying Officer R. H. Simpson, whose father is Mr. A. Simpson, resides at North Battleford, Saskatchewan. Flying Officer J. F. Tees, son of Mr. Margaret Tees, Bruce Mines, Man.

Flying Officer J. Wagman, son of Mr. W. Wagman, Regina, Sask. Distinguished Flying Medal Flight Sgt. F. J. Clay, son of Mrs. E. H. Clay, Red Deer, Alta. Sgt. R. E. Budd, son of Mrs. G. Budd, Hamilton, Ont.

SMILE AWHILE

Darling, how can I leave you?"

"By train, plane or taxi."

—O—

Husband: "Come back for something you've forgotten, as usual?"

Wife (brightly): "No, I've come back for something I've remembered."

—O—

Waiter—Will it be tea or coffee, sir?

Guest—I'm not bettin'. But what else is running?

—O—

He—No woman ever takes another woman's advice about frocks.

She—Naturally. You don't ask the enemy how to win the war.

—O—

Alf—My wife always gets historical when I stay out late at night.

Ralph—Hysterical, you mean.

Alf—No, historical. She digs up all my past.

—O—

Pupil—Teacher, may I ask you a question?

Teacher—Surely. What is it?

Pupil—Why do we call goods sent by railroads "shipments", while we call those sent by ships "cargoes"?

—O—

Mistress—Did you enjoy your day at the seaside, Mary?

Mary—No, I didn't; mum; all the picture houses were full, so we had to wander around the beach, and watch the ships all day.

—O—

Judge—Guilty or not guilty?

Defendant—Not guilty.

Judge—Have you ever been in jail?

Defendant—No, sir; I never stole nothing before.

—O—

"A telegram from George, dear."

"Well, did he pass the examination this time?"

No, but he is almost at the top of the list of those who failed.

—O—

"Who gave the bride away at the wedding?"

"Her little brother. When the bridegroom said 'I do', Willie yelled, 'Hurrah, Sis, you've got him at last!'"

—O—

A fly was walking with her daughter on the head of a doctor who was very bald. "How things change, my dear," she said. "When I was your age this was only a footpath."

—O—

Architect—Now if you'll give me a general idea of the kind of home you need.

Prospective Builder—Well, we want something to go with an antique door knocker my wife brought home from Mexico City.

—O—

AN ANCIENT LAW

If you owned a big dog and lived within 10 miles of the king's hunting preserves, in ancient England, the dog's knees were cut to prevent his chasing the royal game.

—O—

Human tears usually consist of pure water with saline traces.

HERE'S MY FEED PROBLEM...

My dairy feeds seem to be costing more than they should.

HERE'S THE ANSWER...

You may be overfeeding some of your cows. Keep a written chart of milk production and switch to "Miracle" Dairy Feeds. Tests show that "Miracle" Dairy Feeds cut feed costs about 20% and increase milk production as high as 25%.

ASK FOR "MIRACLE" FEEDS

War On Cancer

More Money Should Be Spent On Research Work

During the first days of the Normandy invasion the American armies lost an average of 300 soldiers killed a day. But as Dr. Harlow Shapley, a distinguished American scientist, pointed out in a recent speech during the same invasion cancer killed 400 Americans a day.

Yet Dr. Shapley rightly complains that his nation spends less than \$2 in the war against cancer for every \$1,000,000 spent on military war.

The United States is a progressive and enlightened nation and is doing more about medical research than most others. But still it is not nearly enough there or in Canada, for that matter. The large public health programs planned by Canada for the post-war period should provide plenty of money for research, which alone promises to free men from now incurable diseases—Vancouver Sun.

SQUARE DEAL

I believe that every man is entitled to earn a living, to fair wages, to reasonable hours of work and proper working conditions, to a decent home, to the opportunity to play, to learn, to worship and to love, as well as to all that the responsibility rests as heavily upon industry as upon government or society, to see that these conditions and opportunities prevail—John D. Rockefeller Jr. to Chamber of Commerce, Dec. 5, 1918.

Canada Is Contributing Supplies To The Peoples Of Liberated Europe Which Will Be Rationed

CANADA is contributing not only supplies to the peoples of liberated Europe but the experience of her rationing system, according to representatives of UNRRA's Bureau of Areas. Rationing is one of the first things necessary in the setting up of a stable economic system following the arrival of the Allied armies, they report, and the rationing systems of Canada, Great Britain and the United States have been carefully scrutinized in setting up plans.

Since the guiding principle of UNRRA's entire programme is to help others to help themselves, no attempt is made to dictate to the governments of occupied countries as to what form of rationing or price control they shall adopt, but complete plans are ready, either for total application or for modification to suit any specific locality. Generally speaking, the UNRRA system will follow Canada, in that it will be based on commodities rather than points, and that rationing will be extended only to universally needed goods which can be supplied. No attempt will be made to ration luxury goods.

"It is essential to have the tightest kind of ration control," a spokesman from UNRRA said at the recent Montreal conference.

First step in the institution of rationing in occupied countries will be a complete new registration. Europeans, according to recent observers, are used to registrations, and the system not only guarantees the legitimate use of ration cards but will help to locate members of the population who are constantly moving in an attempt to return to their own homes. Police will be in charge of the first registration, with volunteer helpers to take their places later.

No universal system of rationing is planned. In some areas, for instance, there will be a surplus of grain, which will make rationing of grain products unnecessary. In others, grain products will be in short supply.

UNRRA insists on maintaining the normal mechanics of trade in each country, the Bureau of Areas reports. There will be no big public soup kitchens, but ration coupons will be distributed to enable consumers to purchase supplies at stores.

Although a complete set of ration documents has been worked out for application in liberated countries, UNRRA officials constantly stress the point that they will not force any government to accept their system. As far as possible attempts will be made to retain any existing rationing plan and to utilize what local facilities are available.

Many tons of paper will be provided by the administration for the printing of ration documents, but the actual work of printing and administration will be done by the country itself, according to present plans. Experts from the UNRRA organization will be there to advise and, where requested, to direct proceedings, but the aim will be to set up the machinery to guarantee a stable distribution so that the country itself may carry on.

A Prayer

O God, of-bygone yesterdays and untold tomorrows give us now new faith, new hope, new power, to overcome tyranny and oppression; and we beseech Thee so to order and dispose the issue of this war that we may be brought through strife to a lasting peace.

Protect all those who, at home or abroad, on sea, land, or in the air, are serving their country. May they have Thy blessing in every righteous cause, and the sense of Thy care at every post and task and peril.

Lord hear our prayer for captives and prisoners and the stricken in battle; that the wounded may have healing, and the dying Thy peace and absolution; for anxious families, parents, brothers, sisters, wives and lovers of those now departed from them; for all in stress and misfortune; for those whose faith is feeble; and for all bereaved of their loved ones.

We beseech Thee to hear us, Good Lord, as we pray for the speedy passing of war, that mankind may come out of tribulation and live together in fairness and peace. That out of the agony of the world, and out of Thy own great mercy toward us, we may know true justice and freedom. May peace, enduring and universal, come at last. AMEN.

This simple, powerful Prayer, so appropriate at this time, was written by Hilda Hitchman, the author of "John and Judy" radio program. After it was broadcast, seven thousand people wrote in for copies, but as there are no more available we publish it for your earnest prayer and suggest you send it along to others.—(By courtesy of the Canadian Radio Broadcasters in Globe & Mail, Toronto, Oct. 7, 1944.)

The Front-Line Soldier

Knows Going Is Tough Even With Victory In Sight

Those who are tempted to regard this campaign as a World Series in which our side is sure to win would do well to reflect on the kind of job this is for the soldier. Veterans of the First World War may be able to imagine it, for it is not too different from the kind of war they fought. It is the kind of war in which the front-line soldier is never permitted the luxury of complete safety, never gets enough sleep, can't wash or change his wet clothes, eats cold food, and may count himself lucky if the wound that sends him to the rear is not permanently serious. It is the kind of war in which the breaching of a line, such as the Siegfried, doesn't lead necessarily to the easy rolling-up operation that looks pretty on a map. And when the soldier has been through some weeks of it he may not be sure that he is much farther along than when he started.—New York Times.

HE FOUND OUT

When the kindhearted woman shut the door and turned, she found herself faced by her irate mate. "Why on earth must you feed every tramp who comes to the door?" he demanded, heatedly.

"You've no idea," she replied, sweetly, "what a relief it is to see a man eat a meal without finding fault with the cooking."

Handicraft Course For "W.D.'s"

—R.C.A.F. Photo

Sgt. Maurielle Oliver, B.E.M., of Fairview, Alta., looks up from the scarf she is weaving during the handicraft course for airmen at MacDonald College, Ste. Anne de Bellevue, P.Q. The course was under the supervision of Dr. Ivan Crowell of the College and financed by the Canadian Legion Educational Services. Here W.D.'s from No. 2 Training Command and Air Force Headquarters were trained as instructors to open Hobby Huts on their stations that other airmen may be given a practical knowledge of handicraft to be applied to post-war home-making. Sgt. Oliver is the daughter of Mr. and Mrs. E. E. Oliver and was awarded the British Empire Medal last spring in the King's Birthday list for her work in the Educational Department at Air Force Headquarters. She taught school previous to enlistment and was one of the delegation of students from Canada to attend the Coronation in London in 1937.

British Women

They Composed Half Of The Anti-Aircraft Command

Men and women on balloon and gun sites in Britain have mostly had a thin time in this war. They are the "isolated units" spoken of with pity in appeals for comforts and books. But they end the war with a blaze of glory that so far the keepers of public opinion have not sufficiently noticed. Mr. Sandys's statement on the flying bombardment gave them the honour they have earned. It was the forgotten men and women in khaki and blue who made it possible for us in London to let victory in France pass on its way unimpeded by civilian fears. Half of General Pile's anti-aircraft command are women. There, in a single statistic, is the tribute that countless words and many volumes have tried to pay to British women at war.

Effects Of Music

Doctor Finds That It Soothes His Patients

Dr. Mitchell S. Corbett, a Chicago physician, is a firm believer in the soothing effects of music. He and his assistants treat from 300 to 400 patients a day, many of them industrial cases. Long waits in a doctor's office, he claims, increase the nervous tension of the patient, so he ordered music piped to his office from a service which supplies restaurants and night spots. His patients, he says, are no longer on the verge of nervous collapse by the time their turn for treatment comes.

TURN AGAINST WIND

The "windmill" wings of an auto-giro turn against the wind, although it is the force of the wind that turns them. These wings are power-driven only when the craft is on the ground.

Joins Invasion Allies In Snack

A little Greek patriot joins men of a Royal Air Force unit in an early morning "mug-up" snack on the Greek mainland in the Patras sector where successful landings were made by the Allies. This is one of the first photos to reach this country on the invasion of Greece by the Allies.

Hot Lunch

Mothers Solve The School Lunch Hot Dish Problem

The vexed question . . . hot food in the children's noonday meal . . . means just another headache for some Canadian mothers.

The headache isn't necessary, because the knotty problem can be solved very simply, whether that particular meal is eaten at home, in the school cafeteria or from the lunch-box.

Here is how the women in some rural communities have solved their special "headaches".

In one community each child brings the food to be heated to school in a covered jar . . . the screw-top kind . . . to avoid spills. The jar may contain home-made pork and bean, delicious scalloped potatoes, vegetables in creamy sauce with a sprinkle of grated cheese, good old-fashioned Irish stew, and so on. At recess all the jars are placed in a pan of water on the stove and by noon the food is piping hot.

In other rural schools the hot dish problem has been solved in this way. Each mother takes turns in preparing a hot dish for the noon meal in sufficient quantity for all the pupils. This plan has worked well and the youngsters love it.

Enterprising teachers in still other communities have undertaken the task of preparing the hot course at noon. It may be a steaming kettle of rich cream of tomato soup, or a delectable vegetable chowder, or the old favourite, hot foamy nourishing cocoa.

However it's achieved, this hot course at noon is all to the good and adds up to better health for young Canadians. For this reason, it has the hearty approval of the Nutrition Division, Ottawa, which stresses the importance of hot food in the children's lunch.

Pictures Life In The Canadian Arctic And Possibilities Of Post-War Tourist Centre At Aklavik

STORIES of life in the Canadian Arctic and opinions on the possibility of developing post-war tourist centres in the North have been brought to Ottawa by Dr. L. D. Livingstone, for 23 years the federal government's medical officer in the sub-Arctic.

Dr. Livingstone told how Eskimos were becoming rich as a result of the good price for furs, and he said he believed that Aklavik, possibly one of the strangest communities in all Canada, will become a tourist centre after the war.

"It is quite common for an Eskimo to make \$5,000 a year, and with the good prices for furs they are getting rich," said Dr. Livingstone, who travelled about doctored Eskimos and Indians from Baffin Island to Aklavik, the community which lies just below the Arctic Circle and to the south of where the Mackenzie river empties into the Arctic Ocean.

The community, the home for some 75 whites who are mostly government officials, traders and nurses, also is the Mecca for 400 Eskimos who trap muskrats on the Mackenzie delta and white foxes on Banks Island.

Aklavik has distinct advantages over all other Northern communities. A great coal deposit 70 miles east of the mouth of the Mackenzie supplies the community with good coal at \$40 which is cheap for the Arctic. The price could be less if requirements made it economical to develop more adequate methods of transportation.

However most of the residents of Aklavik are turning to oil. They can buy fuel oil at Norman Wells for 14 cents a gallon and it is being laid down in Aklavik for 30 cents. When the oil company has its tank barges in operation on the Mackenzie river, the price will be less.

Dr. Livingstone says he is home to stay and to make sure of it he has bought a 400-acre farm near Renfrew, but his friends are inclined to think he will not be able to shake the lure of the North.

Tale Of Horror

Cremation Of Children In German Concentration Camp

An eye-witness account of the gassing and cremation of 4,000 Jewish children in the German concentration camp at Birkenau was given in a London dispatch to the Polish telegraph agency.

The dispatch quoted the letter of a Polish woman, imprisoned in the camp for seven months and later transferred to a Warsaw prison from which the letter was smuggled out.

More than 65,000 women have died in Birkenau during the last two years, the letter stated. These included Russians, Ukrainians, Yugoslavians, Germans and French as well as Polish and Jewish, according to the document. More than 9,000 died in one month this year.

MILK SUPPLIES IN BRITAIN

Milk figures have been prominent in British news. The amount supplied in the United Kingdom in June 1944, was 145,025,000 gallons: in June in the three years preceding the war, this figure was 125,072,000 gallons. The increase is partly due to the free distribution of milk to schools. There are 30,426 schools participating in this scheme, and the total amount of milk used each day is more than 230,000 gallons.

OLDEST ANIMALS

The Galapagos Islands, named for the huge tortoises found there, are believed to contain the oldest of all living animals. The tortoises found there are known to be several hundred years old.

Grim Reminders Of War

Private E. G. Hatton points to bullet holes in this place sign at Cap Gris Nez, France, grim reminders of the battle for the German stronghold southwest of Calais. In taking the place, the Canadians overran the big cross-channel guns which have been shelling the Dover area of England for four years.

Preparing For Winter

Fall Is Logical Time For Repairs And Touching Up With Paint

Fall days are ideal for making repairs and giving the home that necessary touching up with paint in preparation for the winter ahead. With most of the season's insects out of the way, and with much of the foliage gone from plants which otherwise might rub against a new paint job, the way is clear for painting without handicaps.

Fall is the logical time too to get after the little outside repairs which mean so much in keeping a home in top shape, and to make sure that everything is done to make the house as draft-defying as possible before the winds begin to blow cold. Fall brings comfortable painting and repair weather plus the urge to make things snug for the winter.

You will probably be doing those odd little jobs yourself this year, the manpower situation being what it is. So before you start haphazardly, why not take time out to go over the house foot by foot and see what is to be done?

Special attention should be given to doors and windows, which might have spaces around the frames which need caulking, for those are the spaces which are the worst offenders when it comes to draft-creating in the winter. Any hardware store can provide you with a good caulking material applied by gun or by knife, and the repair job won't show after a coat of paint is applied.

If you are painting the woodwork outside make sure that all the loose and scaly paint is removed, otherwise the new paint job is bound to be a failure and waste of time.

It cannot be too greatly emphasized that a good primer should be used on the woodwork. One of the special primers to help to bite into the old surface and key the new film to the old paint is a good investment.

Two coats of paint should be used whenever time and opportunity permit. To use one coat only is a false economy.

Drainspouts, waterpots, eaves and other metal fixtures are important at any time, particularly now when materials are scarce. Make sure they are well-painted and rust-proof, not only to preserve the metal but also to avoid dirty streaks on outside walls which result from leaky drains. If the metal is already rusty, sandpaper the rust off down to the shiny metal before painting. Good paint will prevent rust on a clear pipe, but it will only retard, not stop rust which is already eating into the metal.

Screens should be well-painted as they come off to protect the screening against rust during the winter. Storm windows should get a coat of fresh paint before they go up, to preserve the putty and keep the windows draft-proof, as well as to protect the wood itself. But take care to see that the paint is thoroughly dry before the windows are put on, otherwise they will stick and be difficult to take off.

If you are putting new glass in any of the storm windows, be sure to give the woodwork and the glass near the edges a coat of good primer before you put the putty in; and then, of course, you will want a coat of paint over the putty when the job is done. Putty binds and holds much better on wood or glass which has first been painted.

If you are thinking of a little interior painting as well, there is no time better than in the fall, along with the fall cleaning. With the deadening heat of the summer gone, the weather is still warm enough to leave doors and windows open so that the new paint job can dry freely, and so that paint or varnish odours will be carried quickly from the house.

TELEVISION EXPERIMENTS

Dr. Augustine Frigon, recently appointed general manager of the CBC, disclosed that the CBC is experimenting with television and expects soon to erect an experimental station in Montreal. He said television was expensive and it would not become general until a long time after the war.

The banana plant produces its fruit within 15 minutes after the root stock is planted.

This Week's Needlework

by Alice Brooks

Inspired by the antique glass design, Daisy and Button, these crocheted doilies are lovely whether or not you possess this design. Easily crocheted doilies are an asset in every home. Pattern 7248 has instructions for doilies; stitches; list of materials needed.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg, Newpaper Union, 178 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

Windsor Station (upper) headquarters of the Canadian Pacific Railway's wide, long travel system.

Day by day, travellers by the score, and citizens of Montreal watch the progress of the war on huge wall maps in the Concourse of Windsor Station (upper right).

A few of the 2,500 employees of the C.P.R. whose offices are contained in Windsor Station are shown (lower).

HISTORIC Windsor Station in Montreal, nerve centre of the vast Canadian Pacific Railway system, is much more these wartime days than merely a place to get on or get off trains. Under the impetus of war and in keeping with C.P.R. traditions of service, many new features for the use of the general public have been added.

Not the least can be viewed in the flag-bedecked Concourse, where four huge wall maps have been installed depicting the Pacific Theatre, the Italian Front, the fighting in France and the Russian Front. Each day brightly colored thumbtacks are re-arranged to show the very latest gains as announced by the army headquarters in each theatre of war. Not only the travelling public, but many hundreds of Montrealers take advantage of this service by means of which they can secure a vivid, up-to-the-minute picture of all the world's battlefronts. The Concourse itself is decorated with all the flags of the United Nations, each one named.

Over 2,500 officers and employees of the C.P.R. are stationed in Windsor Station, which first opened its doors in 1889. Each day between six and eight thousand telephone calls are made over the company's switchboard there, as well as many long distance business calls over the company's own wires which stretch from Halifax to Vancouver.

Kings and queens, lords and ladies, diplomats, dowagers, immigrants seeking a new life of freedom, young servicemen starting for the far corners of the earth—all these have passed through Windsor Station's lofty portals not only during this war, but in the days of other wars and the years of peace between. Windsor Station is a worthy monument to the world's greatest travel system and the country it so faithfully serves.

YOUR hand... on HIS shoulder

... and don't forget—he has a right to expect that you'll stand behind him... that you'll do all you can here at home to help him finish this war.

He has a right to expect that you'll be willing to work, and save and lend for Victory—invest every dollar you can spare in Victory Bonds.

That's your stand in this war—one hand on his shoulder, the other in your pocket—digging deep to buy one more Victory Bond than ever before!

INVEST IN VICTORY

CANADA'S VETERANS Their Post-War Opportunities

This is the Fourth in a series of advertisements to inform the people of Canada of plans to re-establish men and women of the armed forces. To get full details, save and read every advertisement.

For complete information, write for the booklet, "Back to Civil Life."

Home and Farm Ownership— The Man Who Wants His Own Business

There are two ways in which Canada's service people can have homes of their own. One measure, the Veterans' Land Act, provides assistance in financing homes on small acreages of land outside the high taxation area, while the re-establishment credit may be used for purchase or building of a home in town or city. Low cost financing is available, under the National Housing Act. Under the Veterans' Land Act, assistance is given in financing up to a maximum of \$4800 for land and buildings. The veteran must be prepared to pay down 10 per cent of the cost of land and buildings and the property is then sold to him for this down payment plus two-thirds of the cost. This balance may be financed, if necessary, over 25 years, with interest at 3½ per cent. A further grant may be made for purchase of equipment.

The veteran is given title to the property, including the grant of 23½ per cent of the cost of land and buildings and the money for equipment, after he has lived up to his agreement for ten years.

If the re-establishment credit is used for a home, the veteran must be prepared to put up one dollar for every two dollars used from it. This type of assistance may be applied for at any time within 10 years of discharge.

FARMERS AND COMMERCIAL FISHERMEN

Veterans qualified for full time farming and for commercial fishing may receive assistance in purchasing a farm or home under the Veterans' Land Act in the same way as the veteran wanting a home on a small acreage, outside the high taxation area. In the case of full time farming, an additional grant of \$1200 is available for purchase of stock and equipment, and in commercial fishing the commercial fisherman may receive up to \$1200 to buy needed fishing equipment. To benefit under any of the three provisions of the Veterans' Land Act, the ex-service man or woman must have overseas service or at least 12 months' service in Canada.

TO ASSIST BUSINESSMEN

One purpose for which the re-establishment credit may be used is to buy a business or to provide working capital for a business. Here again application may be made at any time in the 10 years after discharge.

In addition to using the re-establishment credit in this way, people who start their own businesses, or farmers, may draw maintenance grants, during the period they are awaiting returns from the business or the farm. These grants may be paid in the first 18 months after discharge, for the period of service, and up to a maximum of one year.

VETERANS' WELFARE OFFICERS ARE STATIONED IN KEY CENTRES THROUGHOUT CANADA. THEY ADVISE AND ASSIST EX-SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.

Issued under the authority of Hon. Ian A. Mackenzie, Minister of

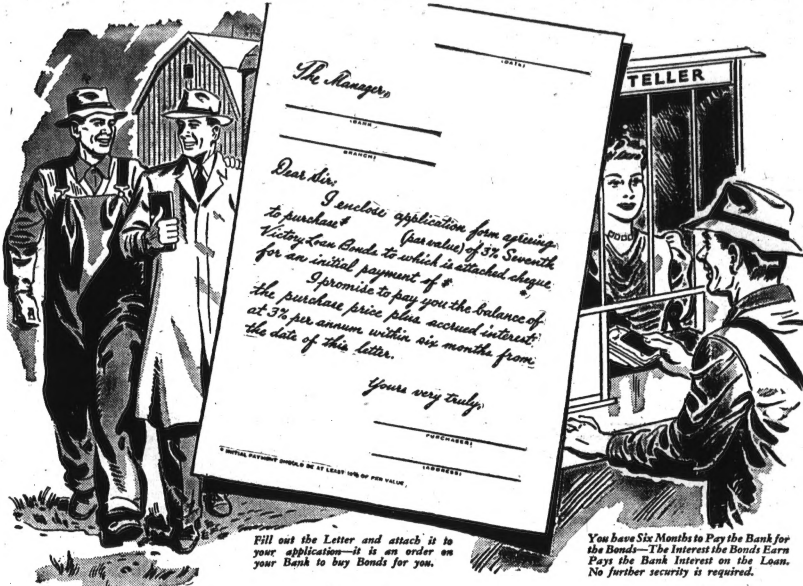

VETERANS' AFFAIRS

Your Victory Loan Salesman Has This Letter

IT ENABLES YOU TO BUY VICTORY BONDS THROUGH YOUR BANK ON CONVENIENT DEFERRED PAYMENTS

● You say you want to do all you can to help Canada's war effort. Then you will keep on buying Victory Bonds. You will buy all you can.

You recognize the obligation that we, at home, owe to our men overseas. You know that stocks of munitions which our fighting men need are being depleted and must be replaced. You know that more munitions must go forward—and you will buy Victory Bonds to help pay for them.

You would like to be able to buy more bonds, you say. Well here is how you can do it. You can buy more bonds with money as you get it. Any bank will loan you the

money to do this and the interest on the bonds will pay the cost of the bank loan. All you have to do is to sign the letter shown here—which you can get from your Victory Loan Salesman. You make a first payment of 10% or more when you apply for the bonds, and pay the balance at any time over a period of six months.

You will be doing an important war job when you do this. You will be helping your country and backing up her fighting men. You will get another reward, too, that will benefit yourself. You will have money, later on, when the war has been won—to do things you plan to do—money to improve your farm and your home.

VIKING ITEMS

The Viking branch of the Canadian Legion meets on the first Tuesday of each month instead of the third Tuesday as was erroneously reported in last week's issue. The next meeting is in Hilliker's hall on Tuesday, November 7th, at 8 P. M.

The Holden branch of the Canadian Legion are holding an Armistice dance at Holden on Friday, November 10th.

After November 1st, local stores will close at 6 P.M. on Saturdays for the next five months.

Don't forget the Viking Legion Armistice dance in the Elks' hall on Saturday, November 11th, from 9 to 12 midnight.

Mr. T. N. Armstrong of Strome district, was to town today. He states harvesting is going along smoothly in his neck of the woods.

With the harvest still going strong all over the district and the elevators are about all full to the top, the grain from now on will have to be kept on the farms is the opinion of local observers, unless a further quota is announced. This fall has been one of the best for many years, say some of

the old-time harvesters.

Mr. R. H. Roddick has purchased the Thunell property on the south side of Fifth Ave. and expects to move in before snow flies.

Mr. and Mrs. A. A. Burnham at have moved into their residence in town.

J. J. Schuller was at Tofteld last week where he helped the threshing crew at the home of his son-in-law Henry Heitman. He also spent Sunday at Busby with his son Stephen.

Miss Mary Slavik held the lucky No. 27, and was the winner of the doll at the C. W. L. bazaar on Saturday evening last.

The Men's Bridge Club will begin the season play in Hilliker's hall on Wednesday, November 1st at 7:30 P. M. All interested please note and get your partners.

Mr. and Mrs. W. D. Murdoch are pleased to have with them for Mrs. Gosior of Innisfree was a visitor in town this week.

A very successful auction sale was held at the farm of the late P. J. Wangness adjoining Kinsella on Thursday, everything offered bringing a good price. Gordon Stalker, auctioneer, cried the sale.

J. D. Elliott and party from Edmonton, attended the funeral of the late Seaman Gordon Tait Elliott here on Saturday last.

Fit. Sgt. J. Kennett was up from the Claresholm RCAF station the past few days and looked after his farming interests east of town. He reports a good crop.

Sapper John Klontz, of the Royal Canadian Engineers, writes from overseas and asks us through this column to thank all societies such as the W. I. C. W. L., The Viking Elks, etc., for parcels he has received overseas, also cigarettes.

AC2 Don Rollans, son of Mr. and Mrs. Horace Rollans, is up from Souris, Man., R.C.A.F. station on a two weeks' leave.

F.O. C. B. Gray of Viking, son of Mr. and Mrs. Boyd Gray, is a member of the famous Bison Squadron overseas which has been adopted by the City of Lethbridge.

The Bisons have earned the imposing total of one conspicuous gallantry medal, 47 DFCs and 15 DFCMs. Good going, boys, and also to the City of Lethbridge.

FO. Tom Murdoch is home on leave.

Ken Reed who was best man at

the Reed-Meredith wedding here about two years ago, is reported killed in action while serving overseas with the RCAF.

When blacking the kitchen range, protect your hand by putting a paper bag over it.

Windows will look bright and shining if they are wiped off occasionally with a cloth moistened in vinegar.

When removing wallpaper, wet it with water in which has been dissolved all the alum the water will take. The paper will come off more easily.

When ironing embroidery, place it right side down upon a heavy towel folded several times.

Save all left-over frosting and use to top crackers, either plain or graham. These crackers go well in lunch boxes.

Dates, figs or raisins will not stick to the food chopper if a piece of lemon is run through the chopper first.

THE SECOND MILE

F. P. Galbraith

F. P. Galbraith, publisher of the Red Deer Advocate and newly elected President of the Canadian Weekly Newspapers Association, has dispatched the following message to all publishers of weekly newspapers in Canada as the Seventh Victory Loan campaign opens:

"It is from the rural districts that Canada draws her strength. Again and again governments and businesses draw their leaders from the farms, the villages and the towns and in this war the farms, the villages and the towns have proved their quality. Now the Seventh Victory Loan faces us. Once more their oys overseas are asking for our financial support. This time it is more important than ever for us to give it. The enemy is reeling but not out. We need to put in that knockout punch that will finish the fight. Buy more this time than you've ever done before and help finish the job."

FEMALE MINIMUM WAGE ORDER

Pursuant to the provisions of The Female Minimum Wage act, Order No. 15 of the Board of Industrial Relations has been published in the Alberta Gazette, October 16, 1944 issue, which states changes in minimum of wages to be paid to female labour. The Order will come into force on December 1st.

New Regulations

The new regulations are laid out as follows:

(a) Wages per week, when the week consists of 30 hours or more \$15.00.

(b) Thirty-five cents per hour when the week consists of less than 30 hours, providing that no employee shall receive less than the \$1.40, when her shift each day world's greatest, living magician consists of four consecutive hours, or less. A meal-time period of not more than one hour shall not be regarded as part of the four hour period.

With reference to inexperienced female employees the minimum wage shall not be less than \$10.00 per week for the first month, \$12 per week for the second month, and \$14.00 per week for the third month, following which period the minimum of \$15.00 per week will become effective.

Inexperienced female employees working on an hourly or piece-work basis must be paid wages not less than at the rate of the minimum weekly wages as at ready stated for the first three months of apprenticeship.

Time in excess of the hours per week as specified, or of any employment, shall be paid at one and a half times the ordinary wage received by such employee.

Deductions for Meals and Lodging

Deductions from wages to cover meals or lodging or both are as follows:

For 18 meals in a full week of 6 days —\$2.50

For 21 meals in a full week of 7 days —3.00

For single meals. —.15

For lodging to cover a full week of 7 days —1.50

Uniforms

Where uniforms or articles of wearing apparel are required to be worn, such uniforms or articles of wearing apparel shall be supplied by the employer free of charge and the employer shall be responsible for cost of repairs or laundering of same.

No deductions shall be made for accidental breakages by an employee, nor shall any deductions be made for time not worked on any statutory holiday.

Not To Be Engaged

Number of Inexperienced Employees shall not exceed 25 per cent of the total number of employees engaged, except when such total is

less than four when one inexperienced employee may be engaged.

Orders Rescinded

This Order, No. 15, rescinds the following female Minimum Wage Orders: Nos. 1, 2, 3, 4, 5, 6, 7, 8, and 12. It is pointed out that the present Order, No. 15, deals purely with minimum rates and must not be considered a Fair Wage Policy.

General

Every employer must allow at least 24 consecutive hours of rest in every consecutive period of 7 days.

Any person employing a girl under the age of 18 in a restaurant or hotel without the written consent of her parent or guardian shall be guilty of an offence and liable to the penalties covering same as specified in The Child Welfare Act.

The introduction on December 1, 1944, of this new minimum scale of wages for female employees will mean an increase in these wages of \$2.50 per week over the old minimum wage of \$12.50 throughout the whole of the province.

RADIOGRAMS

Four way co-operation has made possible the presentation of the Victory Loan Quiz, heard at 7:30 each Friday evening. Four contestants representing each Victory Loan Unit co-operate with three unit organizers by volunteering their services to appear on the program. Burns and Company Limited have generously appropriated the prize money. This consists of \$60.00 worth of War Savings certificates over each radio station for each program. Radio stations CJCA and CFCP, Grande Prairie are offering their facilities gratis. Teams representing the following units will appear at CJCA as indicated:

Oct. 27 - Viking vs Tofteld
Nov. 3 - Wetaskiwin vs Camrose
Nov. 10 - Smoky Lake vs Mundare

A new and completely unique radio show is scheduled to make its debut on CJCA, Tuesday, Oct. 24th at 9:15 p.m. The title "Blackstone the Magician" is practically self-explanatory, and just as you would expect, it will combine mystery, thrills and suspense. For those interested in mystical feats, the great Magician, Blackstone will reveal some of his own breath taking tricks and even tell you how to go about learning same. But whether or not you're interested in learning and practicing "Blackstone's" magic, we know you'll enjoy hearing the \$1.40, when he comes to CJCA, next Tuesday evening at 9:15. Plan to be listening.

Saturday evening, October 28th sees the return of one of Western Canada's favorite radio shows "The Red River Barn Dance". Doors open at 9:00 P.M. The talent line-up includes old friends of previous seasons such as jovial Uncle George, cousin Pete Couture, Sally, Johnny Ebony, and many more. There'll be the usual old-time music, sing-songs, jokes and all round fun making to provide a half hour of downright peppy entertainment. If you plan to be at home Saturday evening, join the fun with the genial folks on "Red River Barn Dances."

WARN DANGERS AT LEVEL CROSSINGS

Recent reports of two fatal level crossing accidents in Alberta, taking the lives of four people, have caused officials of the Alberta Motor Association to issue fresh warnings concerning these traffic hazards.

The old maxim to "Stop, look, and listen" applies more forcefully these days when the volume of traffic is heavier than ever before than in earlier times.

The careful driver takes extra precautions when approaching a level crossing. Nothing is left to chance. The car is brought to a stop or slowed down sufficiently to ensure that the way is clear.

Each year there are deaths caused in level crossing accidents and many suffer physical injury. Despite the fact that many of these crossings have been eliminated, there still are an alarming number in the province.

Death lurks at these crossings for the careless driver. It is necessary that every care should be taken to ensure that the way is clear for vehicular traffic. "Take your time, look and listen, and save lives," says the A. M. A.

MAPS OF SIEGFRIED LINE VERY ACCURATE

Allied Sketches Of The Line Better Than Germans Had

Allied maps of the Siegfried Line were so precise and detailed that they showed the range and traverse of pillbox guns and blind spots by which demolition engineers and soldiers with flame throwers could approach to knock them out, it was disclosed.

Major General Cecil Ray Moore, chief engineer in the European theatre, said the maps were based on aerial photography, intelligence reports, memories of persons who know the territory and anything else available in the way of information.

Even the German high command tacitly admitted the superiority of maps used by Allied forces when it reproduced some captured maps without change, merely superimposing on them the Germans' own military grid lines, General Moore said.

Illustrating the immensity of the military map problem, the general disclosed that 600,000 maps each about as large as a newspaper sheet, have been delivered daily to the 12th Army Group under Lieutenant General Omar N. Bradley. The total weight of these maps is thirty tons.

American forces alone used 120,000 maps in the first 90 days of the invasion, he said, of which 500 tons were delivered by parachute.

In the fall of 1942 the Allies had nothing except outdated Napoleonic maps of western France. Preparation of invasion maps was placed in the hands of Colonel Herbert Milwit, chief of the intelligence division of the Office of Chief Engineer, who went to England in June, 1942.

Conditions In France

Face Serious Plight For Lack Of Winter Clothing

While French courtiers are dazzling Americans with sumptuous models of silk and satin, more than 350,000 French war refugees face a serious plight for lack of winter clothing.

The situation is typical of the tragic paradox which is France today.

Reports on the Paris fashions are said to be causing criticism in Britain and the United States but government officials in Paris say there is no point in drafting workers from the dressmaking industry to sew for the refugees.

"We have no material," they say. "There is no wool in all France. Even in peacetime the dressmakers use only one-half of one per cent. of all French textiles. Silks, satins and velvets are not appropriate for refugees."

Ironically, it was pointed out, there are a million articles of clothing in the United States and other stocks in England, Canada and North Africa for French refugees but they can not be brought to France for lack of transportation.

An official of the ministry of health, which has charge of caring for the refugees, said that the present relief stocks in France would be exhausted in two months and that the situation is "very grave".

Many of the refugees, he said, are wearing blankets.

Better Tableware

Technicians Working On New Designs In Plastic And Glass

Vitrified china made to high-precision dimensions was considered impossible until the U.S. ceramics industry faced the necessity of making land mines for the army. Non-metallic land mines, properly buried, have the virtue of being undetectable by any known instrument. They are also made of glass and plastics. Using these war-fostered precision techniques, ceramics industry technicians are developing for the post-war civilian market designs in shapes and sizes previously considered beyond the limitations of the art. The industry expects better tableware, and may invade new fields, when the war is over.—Brandon Sun.

ILL-FATED SURVIVOR

The lone survivor of the wreck of the *Hesperus*, made famous in Henry W. Longfellow's poem, was a boy of 12. He decided to retire after the wreck and returned to a New Hampshire farm to live. But fate still pursued him and he slipped on a log while crossing a stream some years later and was drowned.

CANADA'S HONEY CROP

The Dominion bureau of statistics preliminary estimate said that the 944 Canadian honey crop totals 215,800 pounds, eight per cent. less than the large production of 1943 but eight per cent. larger than the 1933-45 average of 33,462,000 pounds.

Poker is an adaptation of the Persian game of "As nas".

Made Pictorial Record On Arnhem Epic

These three British army film and photographic unit photographers made the graphic pictures of the Arnhem epic of the British airborne division during the nine-day battle that cost the division more than 6,000 casualties out of a full strength of 8,000. The photographers are, left to right, D. M. Smith of Manchester, who was wounded in the shoulder; Sgt. G. Walker, of Bute, Scotland; and Sgt. C. M. Lewis of London. All three have been through campaigns in North Africa, the Middle East and France.

Plane Crash

Air Rescue Rescued Two Hundred Miles North Of Arctic Circle

Two hundred miles north of the Arctic Circle, six aircree of a Liberator which crashed spent 60 hours huddled together in three one-man dinghies before being rescued by a Catalina flying-boat. Among them was WO. J. H. E. Contant, Cornwall, Ont.

The Liberator was badly damaged in action and caught fire. With flames blazing from one engine and a petrol tank afire the captain had no alternative but to send out an SOS and then "ditch" his aircraft. The Liberator broke up on hitting the water but six of the crew of nine managed to clamber out into the icy sea and swim away from the sinking wreckage. Three five-foot by three-foot one-man dinghies had been thrown clear in the ditching. By almost superhuman efforts they managed to swim to the dinghies which they opened and clambered into as they tossed about in the swell of the ocean.

They tied the dinghies together and, two to a dinghy, they sat to await rescue. They had no drinking water and only two pocket-sized emergency ration packs between them.

A Matter Of Opinion

Not Hard To Determine Which One Is A Foreigner

A girl born in Toronto attended Toronto schools to the very edge of the university. She is the daughter of an Italian couple who came to Canada before they were 20 and were married in this country.

The other day a contented housewife nearby sneered at her as a foreigner, in a burly Scottish accent, the housewife having come to Canada long after her school days abroad were done.

Now there's a situation! Race prejudice, for all its seriousness provides some moments of high humor.—Toronto Saturday Night.

W.R.C.N.S. Chief

Cmdr. Adelaide Sinclair, director of the Women's Royal Canadian Naval Service, as she conferred recently at U.S. Marine Corps headquarters, Washington, D.C.

CLEVER NEGRO BOY

A 13-year-old Negro boy, Darwin T. Turner, entered University of Cincinnati's College of Liberal Arts as probably the youngest freshman enrolled in the school's 125-year history. His mother, Mrs. Darwin R. Turner, a former school principal, holds four degrees from the university.

HAD TO WALK

The earth's first amphibious animals learned to walk on land because they wanted to live in water. These prehistoric creatures, seeing their own pools drying up, started out in search of deeper ones and found they could live on land.

Using New Process

Small Plant Turning Out Huge Supply Of Vitamin A

Enough vitamin A for a daily dose to every person in the world is being made by a single small manufacturing plant at Rochester, N.Y., by use of a new wartime development.

The new process is an advance in molecular distillation. Its success was reported to the Rochester Chemical Engineers Society by Dr. Kenneth C. D. Hickman, of the Eastman Kodak Company.

"The new type stills boil oil in two seconds. They chill it almost as quickly. They are the first large-size pots in what promises to become one of the great post-war industries, by spreading the wonders of the molecular distillation to all kinds of oil and many other liquids."

Shark liver oil is the main raw material. The products are vitamins A, D and E. The company is already the largest producer of vitamin A, and the only large-scale maker of E.

Now an oil is either an edible, a paint, industrial, soap, boot polish, furniture polish gun grease or just an odor oil. Molecular distillation probably will extract separately from any oil the mayonnaise, paint, polish and other fractions, each completely pure.

Japs Tough Fighters

Clever In Retreat But Foolish In Open Says Australian

Capt. S. C. Carter, one of a group of Australian soldiers who reached Britain to help in rehabilitating Australian prisoners-of-war, reported the Jap is a far tougher fighter than the German.

"They use noise as a good deal," said Capt. Carter. "They pay a lot of attention to noise because they are afraid of it themselves."

Carter and his companions termed the Japanese a "fanatical fighter, very clever in retreat, very clever in individual jungle fighting and in the open—very foolish."

They Went Back

Field Marshal Montgomery Kept His Promise To Trappist Monks

Field Marshal Montgomery's way of saying and doing colorful things undoubtedly adds to the hold he has over the public imagination, by lending a truly human dimension to his severe stature as a commander. Whether it is carrying a huge umbrella, or wearing a most unutilitarian sweater, or reading and quoting the Scriptures, he displays those touches of the picturesque that have also explained the attraction of so many of the historic predecessors in his grim profession.

But of all the interesting episodes of his embattled career perhaps none has more of the quality of his independent determination than the episode of his Dunkirk kit. On that bleak day when the headquarters of the 3rd British Infantry Division embarked across the Channel for an almost undefended England, Field Marshal Montgomery, then the commander of the division, left an officer's kit, containing his books and personal papers, with the Trappist Monks at the nearby monastery at Eikhoeke. He asked them to take care of the kit and to keep it for him.

"We will come back and fetch it sometime," he said.

Continuing, with the German armies reaching the uttermost coasts of western Europe and with Dunkirk beaches strewn with British equipment and British dead, it was a confident thing to promise. But both parties, amid the great tides of war, faithfully played their parts in this significant little private drama. The monks cared for the kit, even cementing it into one of the monastery's great walls to conceal it from the searches of the Nazis. And now that Montgomery's soldiers are back in Dunkirk, the Field Marshal has duly sent for and claimed his property, which has been returned to him in good order.

Montgomery knew how to turn his kit into a symbol. By asking the monks to keep it for him, he symbolized his determination to come back. Now, by claiming it, he symbolizes the fulfillment of his determination. It is only a little thing. But it reveals a big man.—Montreal Gazette.

Empire Students

Appeal Launched In London For Funds To Complete Hall Of Residence

The council of governors of London House has launched an appeal for \$3,375,000 to complete this "Hall of Residence" for Empire students in London and to provide an endowment.

Vincent Massey, Canadian high commissioner, and Viscount Bennett, former Canadian prime minister, were present at a Mansion House luncheon launching the appeal where it was announced, a Nuffield Foundation gift of \$1,012,500, had been received.

Before the war London House provided residence for 800 Empire students studying in the capital, and Sir William Goodenough, chairman of the council of governors, said that as the war drew nearer its close it was right that they should think increasingly of the future.

In the field of sound education greater friendship throughout the world would be based. It would also be the field in which competition would be the fiercest.

"We have perhaps failed to realize fully," Sir William said, "the importance of the background in which educational work is carried on, especially to those who come here from overseas."

Lord Bennett said that in London students from the dominions would find the cradle of civilization. They would be able to trace the development of British civilization and its people, the greatest in the world and never greater than today.

Since the war began, 7,000 officers many of them from Canada have been accommodated in London House.

A RHAPSODY

A rose in a moonlit garden, the shadow of trees on the turf, almond blossom, scent of pine, the wine-cup and the guitar; these and the pathos of life and death, the long embrace, the hand stretched out in vain, the moment that glides for ever away, with its freight of music and light, into the shadow and hush of the haunted past, all that we have, all that eludes us, a bird on the wing, a perfume escaped on the gale—to all these things we are trained to respond, and the response is what we call literature.—G. L. Dickinson.

Many Danish women have "curt-batty mirrors" which enable them to look up and down the street from their windows.

CHINA WILL REQUIRE HUGE RELIEF SUPPLIES

Needs Large Sum For The First Year After Liberation

China figures it will need almost \$3,500,000,000 worth of relief supplies in the first year after liberation, and has asked the United Nations Relief and Rehabilitation Administration to provide \$945,000,000 of this total.

U.N.R.R.A. published the Chinese program, stating that for the first 18 months after liberation, China will require 10,000,000 tons of imported supplies with 55 per cent. for rehabilitation and 45 per cent. for direct relief.

"The worst bottleneck in post-war relief for China is the disruption of inland transport," the statement said, adding that restoration of transportation is the first necessity.

U.N.R.R.A. is asked to pay for half China's transportation needs, which are estimated at a minimum of \$663,000,000.

About 3,200 technical experts will be needed to administer relief in China, the report estimated, although recommendations are made for establishment of Chinese government commissions to direct the program.

It applies primarily to relief in occupied China, with a population of 266,000,000. Aid for Free China is also asked.

Only a small part of necessary imports for food, clothing and shelter is asked for U.N.R.R.A., which is requested to finance entirely the programs for health and medical care, welfare services and displaced persons. China intends to bear the main burden for rehabilitation, the report stated.

An example of the extent to which the Chinese expected to make clothing, which will be of cotton only, is cited in the request for 983 tons of needles.

Creates New Problem

Authorities Are Anxious About Tuberculosis Among Eskimos In North

More than 7,000 Canadians, who have no interest in war, politics, or taxes and live in country no one else would have as a gift, are causing some concern these days.

Recent reports from the north say that new cases of tuberculosis have been found among Eskimos examined by government doctors. The cases have been reported in widely-separated parts of the north.

With the memory of what tuberculosis has done among Indians, government authorities feel considerable anxiety. The Eskimos are a wandering people and hunters suffering from the disease may carry it to remote encampments where there is no likelihood of doctors ever encountering the victims.

The few tuberculosis cases discovered among Eskimos in the past usually have been among natives living near posts.

Treatment facilities at present are limited as northern hospitals are not designed to care for patients over a long period. Moving Eskimos to southern institutions may do more harm than good as they claim the Arctic weather suits them better. The development of northern sanatoria in the future may be necessary.

GEMS OF THOUGHT

LIVING FAITH

Faith is the vision of the heart. It sees God in the dark, as in the day.—Young.

If the blind put their hand in God's, they find their way thru the dark more surely than those who see but have not faith or purpose.—Helen Keller.

Through we understand that the worlds were framed by the word of God, so that things which are seen were made of things which do appear.—Hebrews 11:3.

The Scriptures require more than a simple admission and feeble acceptance of the truths they present; they require a living faith, that so incorporates their lessons into our lives that these truths become the motive-power of every act.—Mary Baker Eddy.

The ablest men in all the walks of modern life are men of faith. Most of them have much more faith than they themselves realize.—Bruce Barton.

It is men of faith who have saved the world, not men of knowledge.—Sir Wilfrid Grenfell.

ORIGIN OF NAME

The Mediterranean island of Sardinia gave sardines their name. Known there as pilchards, it was the place where the small fish were prepared by soaking in brine, drying and frying in olive oil.

Britain's Fortresses On Stilts Guard Home Shores

Here are three of the "island fortresses" that have guarded British shores unused during the hectic days when the war was on Britain's doorstep. It was revealed that such fortresses are guarding the Thames Estuary, they are manned by Royal Artillerymen and their functions include protection of east coast shipping. Note how they are connected by catwalks. Each tower is heavily armed with anti-aircraft guns and machine-guns.

"YOUR BREAD IS TOPS!"

"MY YEAST IS TOPS!"

ENSURES EASY BAKING—MAKES LUSCIOUS, SWEET-TASTING, EVEN-TEXTURED LOAVES

WRAPPED AIRTIGHT TO PROTECT POTENCY—ALWAYS DEFENDABLE!

Operational Flight

Two Polish Pilots Had Interesting Experience

Proof of the excellence of British workmanship was given by two Polish pilots recently. On the same operational flight their Mosquitos were badly damaged but they went on to the target, bombing it and bringing their damaged aircraft home.

Running into a stream of flak shells which burst so close that the crew could hear the detonations above the roar of the engine, a Polish pilot and his navigator suddenly felt their Mosquito quiver. There was a great explosion and the aircraft banked on to the starboard wing. Getting it back to level flight and out of the flying shells cost a considerable effort, and the crew found themselves well inside France. Taking stock, the pilot found that a great strain on the steering wheel was necessary to keep the aircraft flying level. The instrument told him that the motors were in order, but the navigator, examining the airframe, reported a large hole in the port wing. They decided to carry on and bomb the target which they eventually found, and attacked from a very shallow dive, as the pilot being unware of the exact extent of the damage did not want to dive too steeply in case the wing came off.

They recrossed France at low level and made a normal landing at the first base they saw in England.

MUCH MORE FUN

Successful Farming magazine suggests that if you send just one box to your serviceman that you include several smaller, individually wrapped packages inside the larger one. Five small packages are more fun than just one.

ACTS 2 WAYS TO RELIEVE MISERIES OF BRONCHITIS

Now get real relief from coughs, soreness and congestion of bronchitis—this double-action way that actually

PENETRATES deep into bronchial tubes with soothing medicinal vapors.

STIMULATES chest and back surfaces like a warming poultice.

To get all the benefits of this combined PENETRATING-STIMULATING action, just rub throat, chest, and back with Vicks VapoRub at bedtime. Instantly Vicks VapoRub goes to work—3 ways at once—as above—above—to ease bronchitis coughing, loosen congestion, relieve muscular soreness, and speed restful, comforting sleep. Often by morning most of the misery is gone. Get relief from bronchitis distress tonight with double-action, time-tested Vicks VapoRub... Try it!

OUR COMPLETE SHORT STORY—

"DESTINY"

—By—
JANET DORAN

McClure Newspaper Syndicate

She would not amount to much, Linwood Haven decided, when the Belknap brood settled on the old Kullum farm, and John Belknap began building chicken coops all over the round-down place. Lucy was the eldest of nine, but she looked about the middle one, with those big brown eyes and that tawny mop of rust-red hair. She was so skinny and undernourished, so eager and passionately earnest in everything she said and did.

It was Lucy who had the perfect attendance mark in Sunday School each year, though the lake road was a sea of mud and slush from November to April. It was Lucy who got the rest of the small Belknaps into clean clothes made from factory remnants, and marched them daily to the little red schoolhouse in the Haven. Lucy believed in things.

And later, when the chicken venture had proved a failure, and the Linwood National was ready to foreclose if they didn't have a payment, plus interest, Lucy got a job afterwards taking care of the Kingsley children and turned her small salary over to the bank.

Through her remaining three years in high school, she earned money at anything from cleaning paint and doing up curtains to cooking a company dinner.

She spent little on herself. But her mother always had a good coat and good shoes, and the boys all went to college.

By that time John Belknap was in the ice business, which, surprisingly, did not pay, and once more the two older boys and Lucy cleared up the mortgage while their father dreamed up a fresh scheme to get rich quick.

The new road was going through that year, and Belknap decided it would have to go past his farm to link the two trunk lines. So he built five tourist cabins, and settled down to await the rush of business.

The road went over Whina Mountain and the tourist bubble became a punctured dream. It was Lucy's graduating year. She was valedictorian, and her theme was "Make A Place For Yourself in Your World." It made front-page headlines in the Linwood Evening Sentinel.

The city editor of the Sentinel offered Miss Belknap a job on the paper at fifteen dollars a week, with a chance to work up and learn. The Music Shop telephoned to offer her a job at twelve. Lucy declined both offers.

The ice business was busy failing, and she had majored in Home Economics, a subject that anyone in Linwood Haven could testify. It was for boys who wanted to learn machine work, and girls who had matrimony on their minds.

"A girl as smart as that Lucy Belknap should teach," opined the town.

"I don't want to be a teacher," Lucy declared. "I like to cook!"

"Bah! Food Shoppe, probably; a dreamer like her father."

"No food shop ever paid its way in this town," Lucy argued. "This is an industrial center, and people buy bakery products, not home cooking."

That same month the Linwood Trust wanted a payment, or else Lucy stuck her savings deep down in one pocket and boarded a train for Hartford. She landed a job with the Tri-State Utilities Company as a demonstrator, and soon had delighted office men sampling a long sheet of flaky baking-powder biscuit she had baked.

"When I bake biscuits like these on one of your electric ranges," Lucy said, "mediocre cooks will believe they can do the same."

She sent the vice-president of the company around the corner to buy maple syrup to offset the biscuit, then busied herself making an apple pie.

That night she telephoned her mother to come. "I've a small apartment, Mother," Lucy said. "I want you to stay with me a while and rest up. Don't go back home until Father gets a job and quits this visionary nonsense, Mother," she advised earnestly. "You've gone with out all your life, to further his wild schemes. Now let him see they're silly."

The bank took back the farm, as everyone had always known they would. And of his nine children, the one John chose to live with was Lucy. "Nothing doing," Lucy told her

father. "I'll look after Mother; you make the others take care of you." "Man hater," John Belknap accused her. And the bluish that betrayed the freckles beneath her smooth make-up was all an answer she gave. And not one of us would tell on her. Not when we attended the Lucy Belknap Cooking School and learned how to make her heavenly lemon meringue pie, her feathery Parker House rolls, or baked ham supreme.

Because the man who came along to help her in the sales of kitchen equipment was none other than Brad Hart, whose father was top man in Tri-State. Brad had gone to Linwood High School.

It was because Lucy had loved Brad for years that she'd had to have her career. Had to be somebody. It was her idea of the best way to match so much money—and so much worth. Together, she and Brad would weld their careers into the solid foundation on which they'd build a successful marriage. Lucy had always known this to be her destiny.

Volunteer Workers

W.V.S. in Britain On Duty Day and Night in Air Raids

"Britain will never forget the work of its W.V.S. volunteers" said the directors of the Canadian Women's Voluntary Services, National War Services, Ottawa, recently.

"W.V.S. women drove vans day and night, sometimes taking people to shelters from homes at which the flames were already licking," said the directors. "And later in the great blitz their 'Housewives Service' organized the hundred and one small errands that are so large a part of work after an air raid."

"After the raid," was an elastic term to these British volunteers. W.V.S. women might have to get up at four in the morning for days on end to come from their own peaceful towns as reinforcing parties and be at their Centre before the 'All Clear' sounded."

And in conclusion the directors pointed out that "like all other civil defenders during those dark days in Britain, the women of the W.V.S. had their own homes bombed and their own relatives killed, but they kept on working."

Child's Jumper Suit

By ANNE ADAMS

Look, Mother—only one yard needed for this cute jumper! Make Pattern 4505 with matching jacket. Make blouse, too, from same pattern. Pattern 4505, from children's sizes 2, 4, 6, 8 and 10. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because the swiftness of the mails delivery of our patterns may take a few days longer than usual."

REPAIR HOMES IN BRITAIN

Building labor in London has been doubled in order to repair houses damaged by flying bombs. Skilled workers from all parts of the country have been drafted in and men from the Services are assisting. In the middle of June, those engaged on general repair work in London numbered 24,000. By July 3 the total had been raised to more than 30,000, and by the end of July nearly 60,000 were employed.

Nervous, Restless

On "CERTAIN DAYS" of the Month? If functional periodic disturbances made you feel nervous, shaky, irritable, strong tired, weak and "dragged out" at such times—start at once, try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Here's a product that uses natural, powerful, healthful ingredients. Follow label directions. Pinkham's Compound is a sure remedy! Made in Canada. LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

SASKATCHEWAN HEALTH SURVEY

The insecurity inherent in the geography and economy of Saskatchewan "makes it the more urgent to establish a system of socialized medical services on a provincial scale," it is stated in the report recently released by the government-appointed Saskatchewan Health Services Survey Commission. Thus any plan formulated for the future would have to give primary consideration to the development of rural medical services.

If recommendations contained in the report are adopted, it appears that the Saskatchewan government's pre-election promise "to set up a complete system of socialized health services with special emphasis on preventive medicine," will be headed towards fruition.

The commission was headed by Dr. Henry E. Sigerist, professor of history of medicine at Johns Hopkins University, Baltimore, Md. Its report said the history of the last two decades revealed a marked trend towards the socialization of essential medical services. And, in a section dealing with rural health services, the report said the establishment of Saskatchewan's municipal doctor system 25 years ago had brought medical care to thousands of people who otherwise would not have had any medical attention. The system had stood the test of time and should be maintained and developed, but with certain defects—such as lack of uniformity—remedied.

However, the report added that most municipal doctors are underpaid and over-burdened with work. As a result they had to accumulate contracts and engage in private practice in order to make a decent living. There also was the temptation to practise surgery without being fully prepared for it.

Remedies suggested included the organization of Rural Health Units, served from Rural Health Centres, in order to make minimum salaries for municipal doctors, such salaries to be increased with years of service.

Under such a system the member of a farm family who became sick would seek advice at the Rural Health Centre where he would receive examination and treatment and would be hospitalized if necessary. Patients requiring major surgery or specialized treatment would be referred to the nearest District Hospital where treatment, not available at the centre, would be obtainable. Rare cases presenting difficulties in diagnosis or requiring neurosurgery, chest surgery or similar highly specialized treatments would be referred to larger centres in the bigger cities.

Commenting that District Hospitals should have full-time surgeons on their staffs, the report commented that it is a "waste" to have well trained surgeons engaged in general practice.

Hopeless Cause

Nazi Planes Drop Beetles On Potato Field In Britain

Colorado beetles dropped on Britain's potato fields by Nazi planes, constitute merely a further evidence of the desperation of our enemies, less spectacular than the robot bombs but none the less reliable. It is almost ludicrous to believe, of course, that enough of the pests could be scattered to do serious damage, particularly when Germany's ability to send over plans is strictly limited. This new scheme of sabotage distinctly resembles the clutching of a drowning man at a straw. We should be thankful for this further proof that the Hun is now convinced his cause is hopeless—Windsor Star.

Heavy Casualties

Ancient City Of Bath Had 19,000 Buildings Destroyed

The ancient city of Bath suffered 1,272 casualties and 19,000 of its buildings were destroyed by German bombers in three nights from April 27, 1942. British authorities compiling bomb damage data announced.

The losses were termed "Badeker" raids by officials, saying the Germans had made a studied effort to wipe out England's famous cities listed in the guide-books by Karl Badeker.

Guard Against Fire

An Ever Present Hazard Around Farm Buildings

Every day hundreds of farm buildings in Canada and the United States are destroyed by a single enemy—fire.

In many instances, according to authorities, these fires could be avoided. This year with farmers working overtime to produce food for the United Nations, farm production should not be impeded even by the smallest fire.

Fire authorities say that all rubbish about the house and the other farm buildings, especially inflammable material, should be cleared away. Smoke pipes should be checked and cleaned out if they've become sooty. The kitchen stove should be on a good substantial base where there is little chance of fire. Electric wiring in the house and barns should be properly installed and checked regularly. Worn wiring constitutes a very real fire hazard.

To guard fires caused by electrical storms, lightning rods should be installed. By the same token, all wire fences enclosing yards, pastures should be grounded to protect livestock from lightning.

Despite all these precautions, fires sometimes start, and when they do, quick action is essential. Fire authorities suggest that water or sandpails and chemical extinguishers are a good investment. These, of course, should be checked from time to time to make certain that they are in good working order.

LIVESTOCK INCREASE

The Dominion Bureau of Statistics said a new high record of numbers of cattle on farms was established at June 1, with the total of 10,346,000 head representing an increase of seven per cent. over June 1, 1943.

FEW TRAIN ACCIDENTS

Only one train accident on British railways last year involved fatalities to passengers; four people were killed.

Serve Muffins On Your Breakfast Table

Looking for something very special for your Fall breakfast table? Then here's the perfect combination—All-Bran, apples and spice all rolled up into a delicious hot muffin! And what's more, these extra good Spicy Apple Bran Muffins will give you plenty of vitamins, minerals, and energy to last until lunch time!

Make them a "must" for tomorrow's breakfast and just watch them disappear!

SPICY APPLE BRAN MUFFINS

3 tablespoons shortening	1 cup sifted flour
1/4 cup sugar	2 teaspoons baking powder
1 egg	1/4 teaspoon salt
1/4 cup All-Bran	1/4 teaspoon cinnamon
1/4 cup milk	1/4 teaspoon nutmeg
	1/2 cup chopped raw apple

1 tablespoon sugar 1/4 teaspoon nutmeg
Blend shortening and sugar thoroughly; add egg and beat well. Stir in All-Bran and milk. Sift flour with baking powder, salt, cinnamon and nutmeg. Stir dry ingredients and chopped apple into first mixture; stirring only until flour disappears. Fill greased muffin pans two-thirds full; sprinkle with mixture of sugar, cinnamon and nutmeg. Bake in moderately hot oven (425 degrees F.) about 20 minutes. Makes nine muffins (2 1/4 inches in diameter).

Funeral of Seaman Elliott

SEAMAN GORDON T. ELLIOTT
(From the Viking News)

The funeral of Seaman Gordon Tait Elliott, who was killed in action against the enemy, was held from the Viking Anglican church on Saturday, October 21st, at 2:30 P. M. The body was brought back from an eastern port for burial here. Rev. Mr. Godwin officiated at the service which was largely attended by people from all parts of the district. Rev. Godwin spoke of the great sacrifice this young man had made, like so many others, in this global war.

Hymns sung at the service were "Eternal Father," "O God Our Help in Ages Past," and "Jesus Lover of My Soul." Six cadets from the Malta Squadron No. 134 acted as pallbearers, and carried the flag draped casket from the Funeral Home to the church and also took charge at the graveside where Seaman Elliott was buried and beside his late father, George Edgar Elliott. The "Last Post" was sounded by V. J. Harney at the graveside. Petty officer Bailey of the Saskatchewan accompanied the body from the eastern port, and represented the Royal Canadian Navy at the funeral rites. Veterans of the first great war were also represented.

Seaman Gordon Tait Elliott was born at the Viking hospital, August 6th, 1925. He received his schooling at Rodino and Innisfree. He was an original member of the Malta Squadron Air Cadets, and enlisted in the Navy on October 18th, 1943.

Left to mourn his loss are his mother, Mrs. Dan Laidler; step-father, Mr. Dan Laidler; a brother, George Elliott, and sister, Elaine Laidler.

ther, George Elliott, and sister, Elaine Laidler.

The Rodino community mourn his loss and are proud to have known and loved such a fine lad who answered the call in the Empire's need and made the supreme sacrifice.

Floral wreaths were from:

The Family: Aunt Annie; Aunt Ena and Uncle Oliver; Thelma Easton and Mary Jr; Uncle John and family; The Laidler family; Margaret and John Stuckmer; the children of Rodino school; The Paget family; M. and H. Swayne; T. Daniel family; Mr. and Mrs. Roy Park and family; Albie, Margaret Tommy and Grace Winfield; Mr. and Mrs. H. A. Meredith.

Contributions to Navy League in memory of the late Seaman Gordon Elliott:

Mr. and Mrs. W. Garvie, Sr.; Ivy and Pete; Roslind and John; Bill, Ena, and Audrey; Mr. and Mrs. MacFarlane; Rodino Young People; Rodino W. A.; Rodino Red Cross; Mr. and Mrs. C. R. Powell; Mr. and Mrs. Winfield, Sr.; Mr. and Mrs. Rayment and family; Mr. and Mrs. Desmond; Mr. and Mrs. L. Cameron; Mr. and Mrs. Jas. Laidler; Jimmy and Mary; Mr. and Mrs. S. Daniel; Mr. and Mrs. E. N. Stiles; Viking Canadian Legion member; Mr. and Mrs. H. Vandervate, Jr.; Mrs. M. Beck; Mr. and Mrs. Wm. MacFarlane; Mr. and Mrs. Debs Faulkner; Mrs. Daisy Johnston.

Before opening a can of paint turn it upside down for a short time and it will mix better when opened.

To clean radiators in the home place a large damp cloth in back and over the radiator and then blow the dust onto the damp cloth with your vacuum cleaner.

A WORD TO THE WISE

According to the Village By-Law the winter schedule of hours goes into effect November 1st and continues for five months. This means that all stores, barbershops etc., will be open from 9 A. M. to 6 P. M. during week days including Saturdays. This week, Saturday, October 28th, is the last Saturday that the local stores stay open until 10 P. M.

A few days, Mrs. McLean, their daughter, of Shelley, B. C., and two children, and their son F.O. Tom Murdoch and wife from Saskatoon.

Mr. and Mrs. Roadway of Sedgewick district were visitors in town this week.

FARMERS!
WILL YOU HELP THIS WINTER?

If you are not required on the farm this winter you should take other work.

Extra winter workers are needed for woods operations—logging and pulpwood and fuel cutting—base metal mines, coal mines, meat packing and cold storage, grain handling, railway track maintenance, iron foundries and other high priority occupations, varying with the area.

Please offer your services to:

The nearest Employment and Selective Service Office; or

The nearest Provincial Agricultural Representative; or

Your Local Farm Production Committee.

A good response to this appeal is important to Canada's welfare—please act immediately.

Postponement of Military Training continues while in approved essential work off the farm.

NATIONAL SELECTIVE SERVICE DEPARTMENT OF LABOUR

HUNTHREY MITCHELL A. MacNAMARA
Minister of Labour Director, National Selective Service

This advertisement is issued by the Dominion Department of Labour in aid of the Dominion-Provincial Farm Labour Programme.

TRAVEL BY BUS!

Here's how you can help with our Nation's Transportation problem:

1. Travel on Tuesdays and Thursdays instead of on crowded week-ends.
2. Avoid travelling on holidays during the rush season.
3. If you are sometimes inconvenienced, smile it off as a contribution to winning the war.
4. Consult your Agent or Driver for travel information.
